# Grant Information

## A. Background and Purpose of the Grant

Under the FY 2020 Charter Schools Program (CSP) State Entities Competition, the U.S. Department of Education (Department) awarded grants to eight states. Authorized under the Every Student Succeeds Act (ESSA) (20 U.S.C. §§ 7221-7221j), the CSP State Entities Program is a competitive grant program that enables State entities to award subgrants to eligible applicants in their State. The program’s purpose is to “expand opportunities for all students, particularly traditionally underserved students, to attend charter schools and meet challenging State academic standards; provide financial assistance for the planning, program design, and initial implementation of public charter schools; increase the number of high-quality charter schools available to students across the United States; evaluate the impact of charter schools on student achievement, families, and communities; share best practices between charter schools and other public schools; encourage States to provide facilities support to charter schools; and support efforts to strengthen the charter school authorizing process.”

On September 30, 2020, the New Jersey Public Charter Schools Association (NJPCSA) was awarded a competitive five-year CSP grant to administer a subgrant program that will pursue the following two overarching objectives:

- (1) Increase the number of high-quality charter schools statewide; and
- (2) Increase the overall quality of NJ’s charter school sector.

CSP grants awarded by NJPCSA through its New Jersey CSP Grant program are federally funded under the US Department of Education CSP State Entities Grant (CFDA number 84.282A) and are subject to the availability of funds through the CSP. Additional federal guidance and related documents are available at the Office of Elementary and Secondary Education webpage for [“Expanding Opportunities through Quality Charter School Programs \(CSP\) Grants to State Entities.”](#)

In carrying out these objectives, New Jersey Public Charter Schools Association will provide subgrants to qualified charter school developers to provide financial support for the initial implementation of opening, expanding, or replicating a public charter school.

NJPCSA may award subgrants to new charter schools, replicating charter schools, and schools that are expanding for a period of up to 42 months inclusive of planning and implementation periods. Expansion can include schools that began growing in Fall 2024 (without a planning period) or 2025 (with a planning period). The **planning period** may be no longer than 18 months. The **implementation period** may be no longer than 24 months. Through a competitive process, all subgrantees will be eligible to be awarded up to \$1,500,000. The base award is up to \$1,000,000. Subgrantees are eligible to be awarded up to two additional \$250,000 escalators based on satisfaction of absolute and proportional enrollment targets set forth in Table 2. All final award amounts will be determined at the conclusion of the awards process and verified after enrollment.

**Table 2. Subgrant Award Amount Breakdown**

Target	Amount	Timing
Base Award	Up to \$1,000,000	Upon approval of application
School is located in a QOZ or Abbott District or draws at least 40% of its student population from neighboring QOZ	\$250,000	<b>After first</b> verified October enrollment count
At least 60% of school’s students are economically disadvantaged*	\$250,000	<b>After first</b> verified October enrollment count

## F. Permissible Activities

All requested budget items must be reasonable, necessary, allowable, and allocable as defined in the Office of Management and Budget’s Uniform Guidance (2 C.F.R. Part 200). All costs must be justified for the specific purposes of this CSP subgrant, necessary to complete grant objectives, supported with justification for reimbursement, and aligned with state and federal law. Required justification may require upfront planning and tracking and should be addressed prior to spending any approved funds.

Federal non-regulatory guidance indicates “If the charter school can show that the state or local funds it has received are necessary to meet expenses other than the one at issue, then the charter school has met its burden of showing that the ‘other initial operations costs’ cannot be met from state or local sources and, therefore, is allowable under the CSP grant.” Costs incurred must be one-time in nature, obligated during the grant project period, correlated to a grant objective, and may not include ongoing operational costs.

An applicant receiving a subgrant under this program may use the subgrant funds only for allowable activities as defined in the ESSA § 4303(h):

1. Preparing teachers, school leaders, and specialized instructional support personnel, including through paying the costs associated with–

- a. providing professional development; and

  - ii. School leaders.
  - iii. Specialized instructional support personnel.
2. Acquiring supplies, training, equipment (including technology), and educational materials (including developing and acquiring instructional materials).
3. Carrying out necessary renovations to ensure that a new school building complies with applicable statutes and regulations, and minor facilities repairs (excluding construction).
4. Providing one-time, startup costs associated with providing transportation to students to and from the charter school.
5. Carrying out community engagement activities, which may include paying the cost of student and staff recruitment.
6. Providing for other appropriate, non-sustained costs related to the activities described in this RFA when such costs cannot be met from other sources.

Unallowable Costs include:

1. Facility construction, renovation, or other capital improvement costs, except as described above in the allowable activities section.
2. Any recurring costs, such as lease payments, or utilities incurred after the first 18 months of the award.
3. Utilities and other facility operating expenses on or after the first day of school.
4. Grant oversight expenses.
5. Non-educational/non-informative promotional/novelty items for advertising, events, or recruiting.
6. Gift certificates, alcoholic beverages, school apparel for staff or students, fines and penalties, lobbying.
7. Student activities.
8. Professional dues or memberships.
9. Employee hiring/recruitment expenses such as a placement firm or travel for prospective employees.
10. Salaries or related fringe benefits after the school opens for essential staff such as the school principal, financial manager, etc.
11. Costs of continuing education credits for professional development coursework.
12. Out-of-state travel, unless it can be demonstrated that the goal of the travel is directly related to startup activity and cannot be accomplished in-state (no out-of-country travel is permitted).
13. Expenses outside the scope of the school's charter or K-12 education, i.e., before/after school programs and preschool, activities related to the non-profit organization but not the charter school, etc.
14. Funding cannot be redirected for other uses (e.g., traditional public schools that are not charters).

This list is not inclusive but is presented to show typical items that cannot be covered with grant funds. Additional resources for federal guidance pertaining to allowable costs under the CSP program are shown below:

- Math manipulative sets for grades 3-5 for hands on learning, one set per classroom

The rationale for these funding priorities for supplies include:

- Because the school is adding grades 3-5, and there have been historically positive outcomes for our student population using this curriculum we will continue to use it to yield further positive outcomes for student performance with new students.
- Are instructional methodology as noted in our instruction plan focused on hands on learning. The use of math manipulatives will support students, particularly at-risk students, in acquisition of math skills.
